Heart For India is a Geneva-based Foundation and NGO which operates in Chennai. HFI provides to the most vulnerable children a Quality Education and a Nutritional Program to eradicate malnutrition. For the past 18 years, the combination of Education and Nutrition has given fantastic results: 97% of our students succeed their 12th examination and are able to follow up advanced studies in excellent universities. Instead of 50% of children suffering from malnutrition and undernutrition, the HFI Nutrition Program has totally eliminated this serious scourge. To empower young women by giving them confidence and strength, we have organised self-defence and karate classes. Thanks to your long term fidelity, support and generosity, we have gotten out of poverty 41'600 children and 1'560 young women. Thanks to you, they can aspire to a better future in the world's biggest democracy.
